

# CAR EVAPORATOR CLEANER

## The Permanent Solution to AC Odors and Maintenance Challenges

Patent pending

Mahmood Alhinai, alhinaimahmood850@gmail.com

- Eliminate unpleasant AC Odor
- Annoying for passengers
- Bad reputation for manufacturers

- Make it easy to clean evaporator core
- Remove build up dirt and mildow easily

- No need to disassemble the dashboard
- Costly, time and labor intensive

- Toyota Tried to solve the issue
- Used foam kit
- It did not reach the core
- Lost **\$30M** in a lawsuit

- Mercedes Tried to solve the issue
- Used fragrance
- It only covered the odor
- Lost **\$1.5B** in a lawsuit

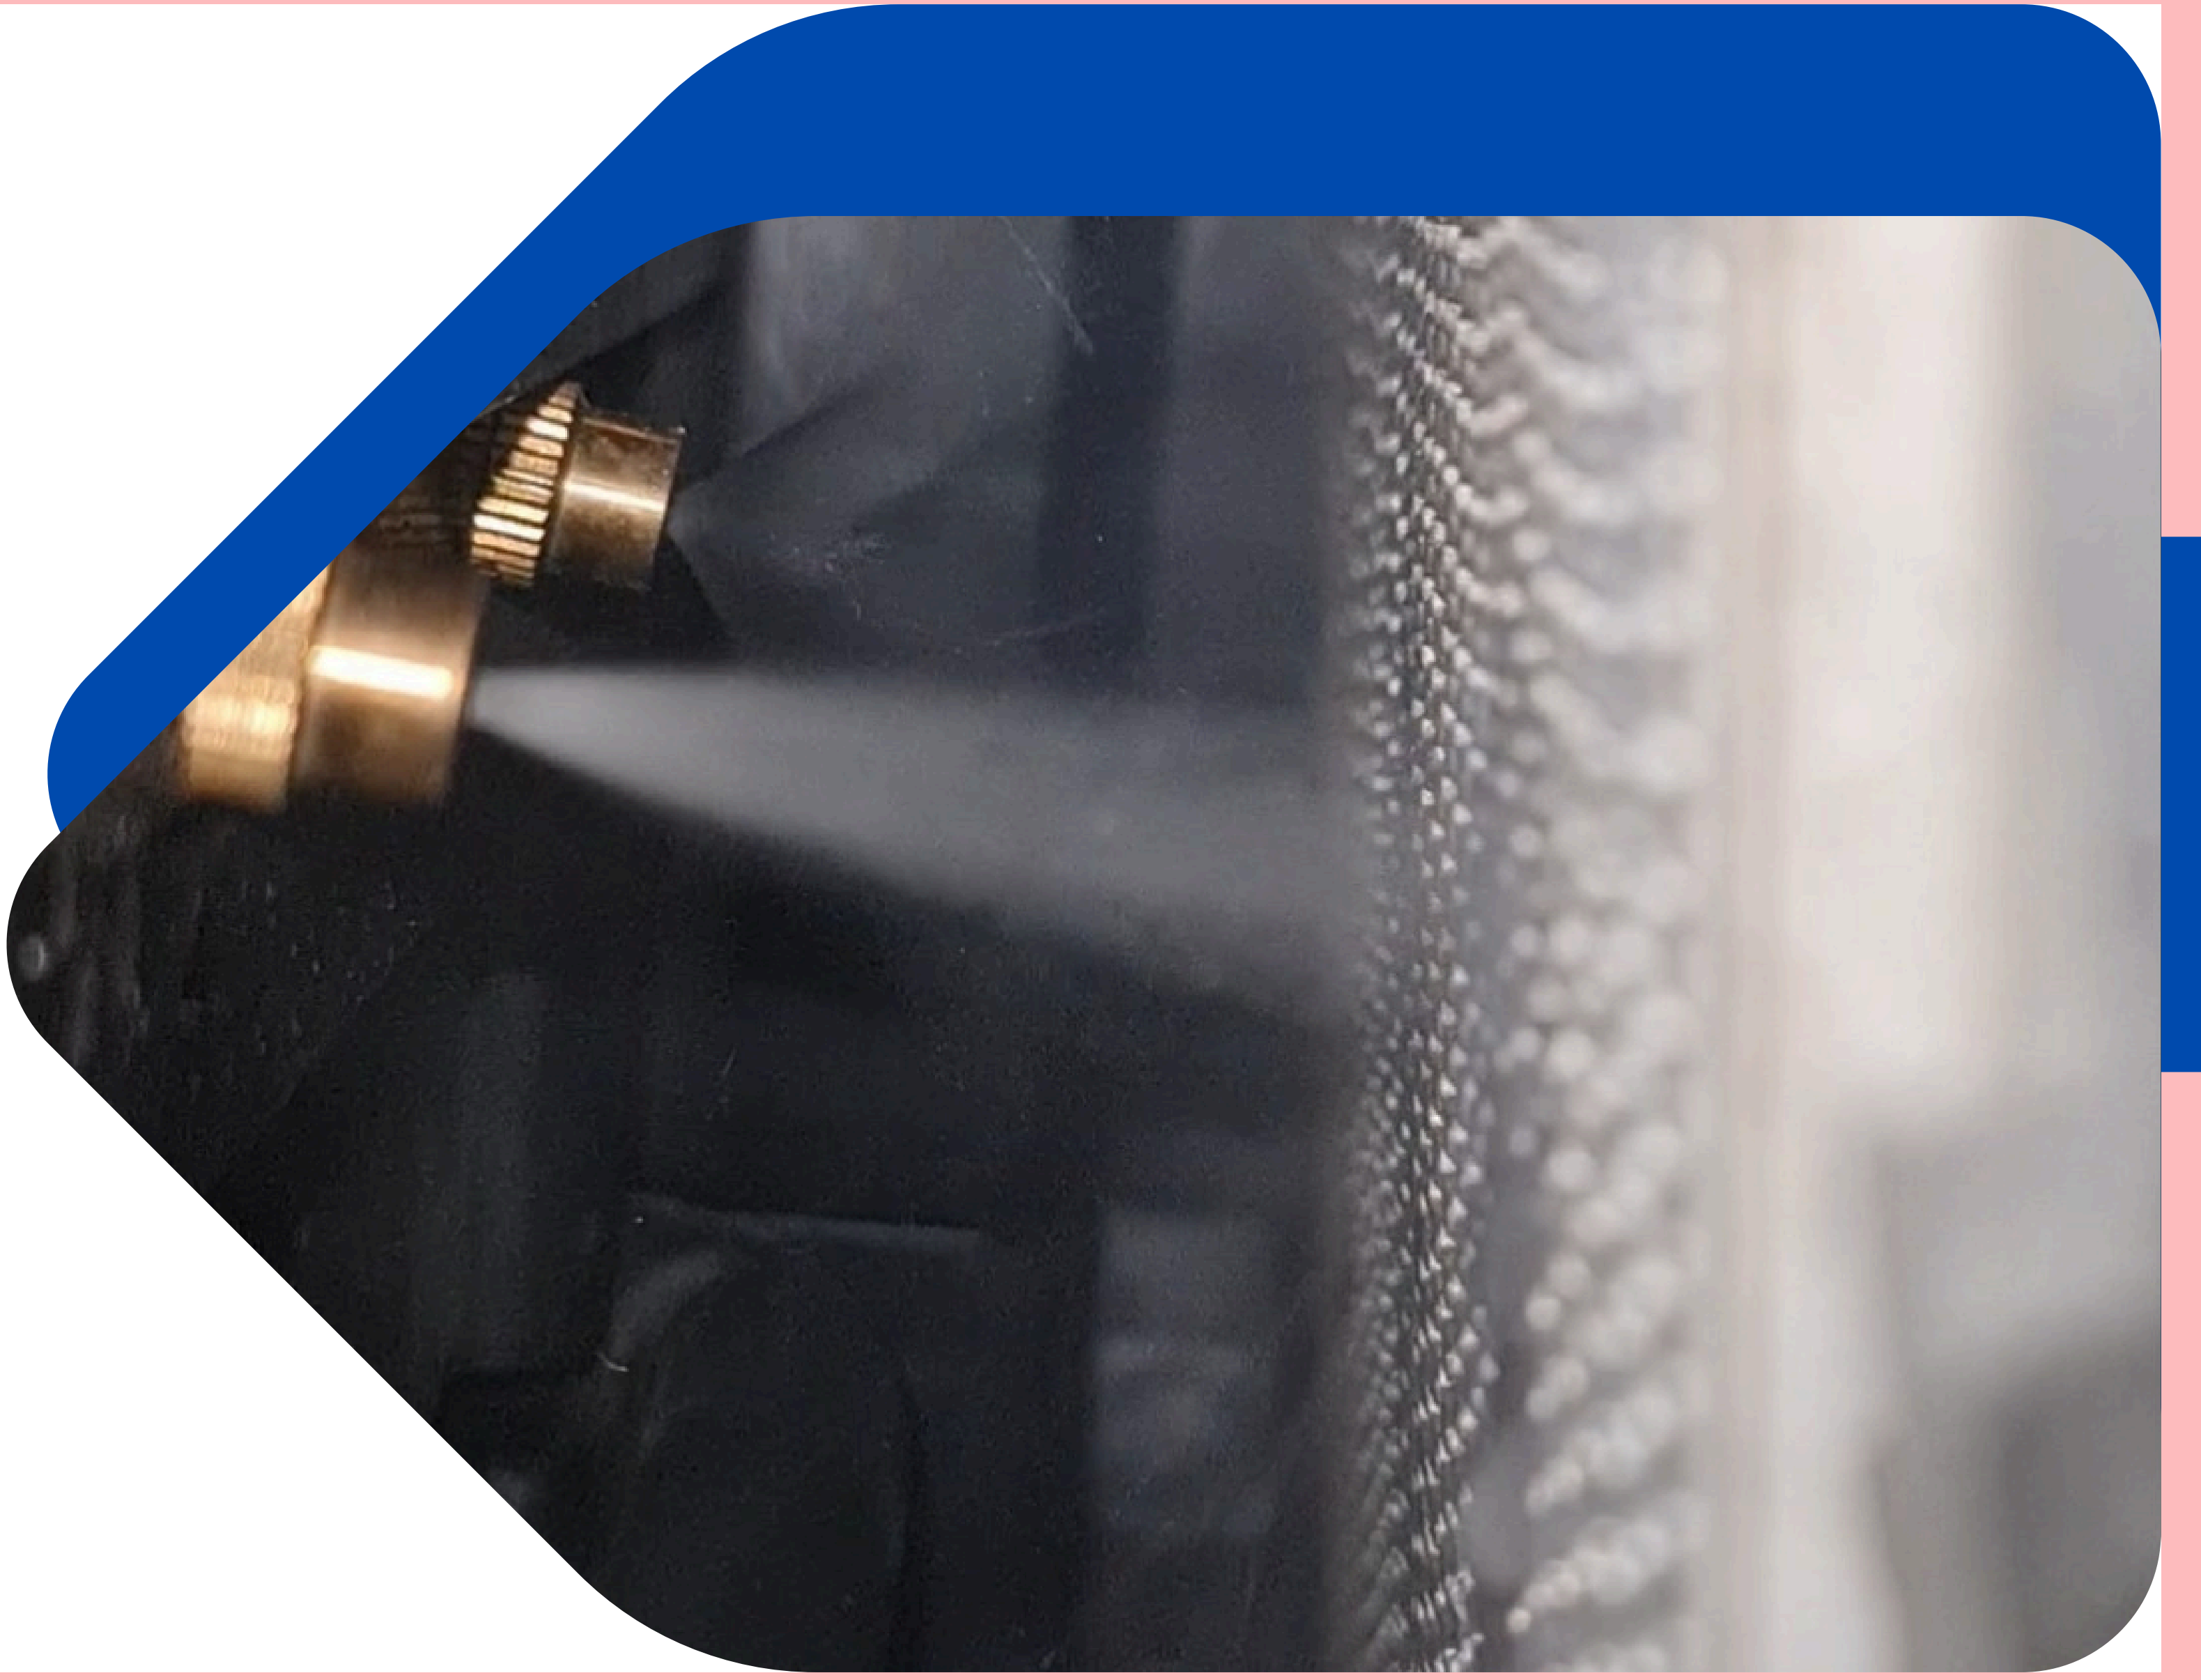

- Foam does not penetrate in the coil, as tested
- Perfume does not kill mold, mildew and do not remove dirt

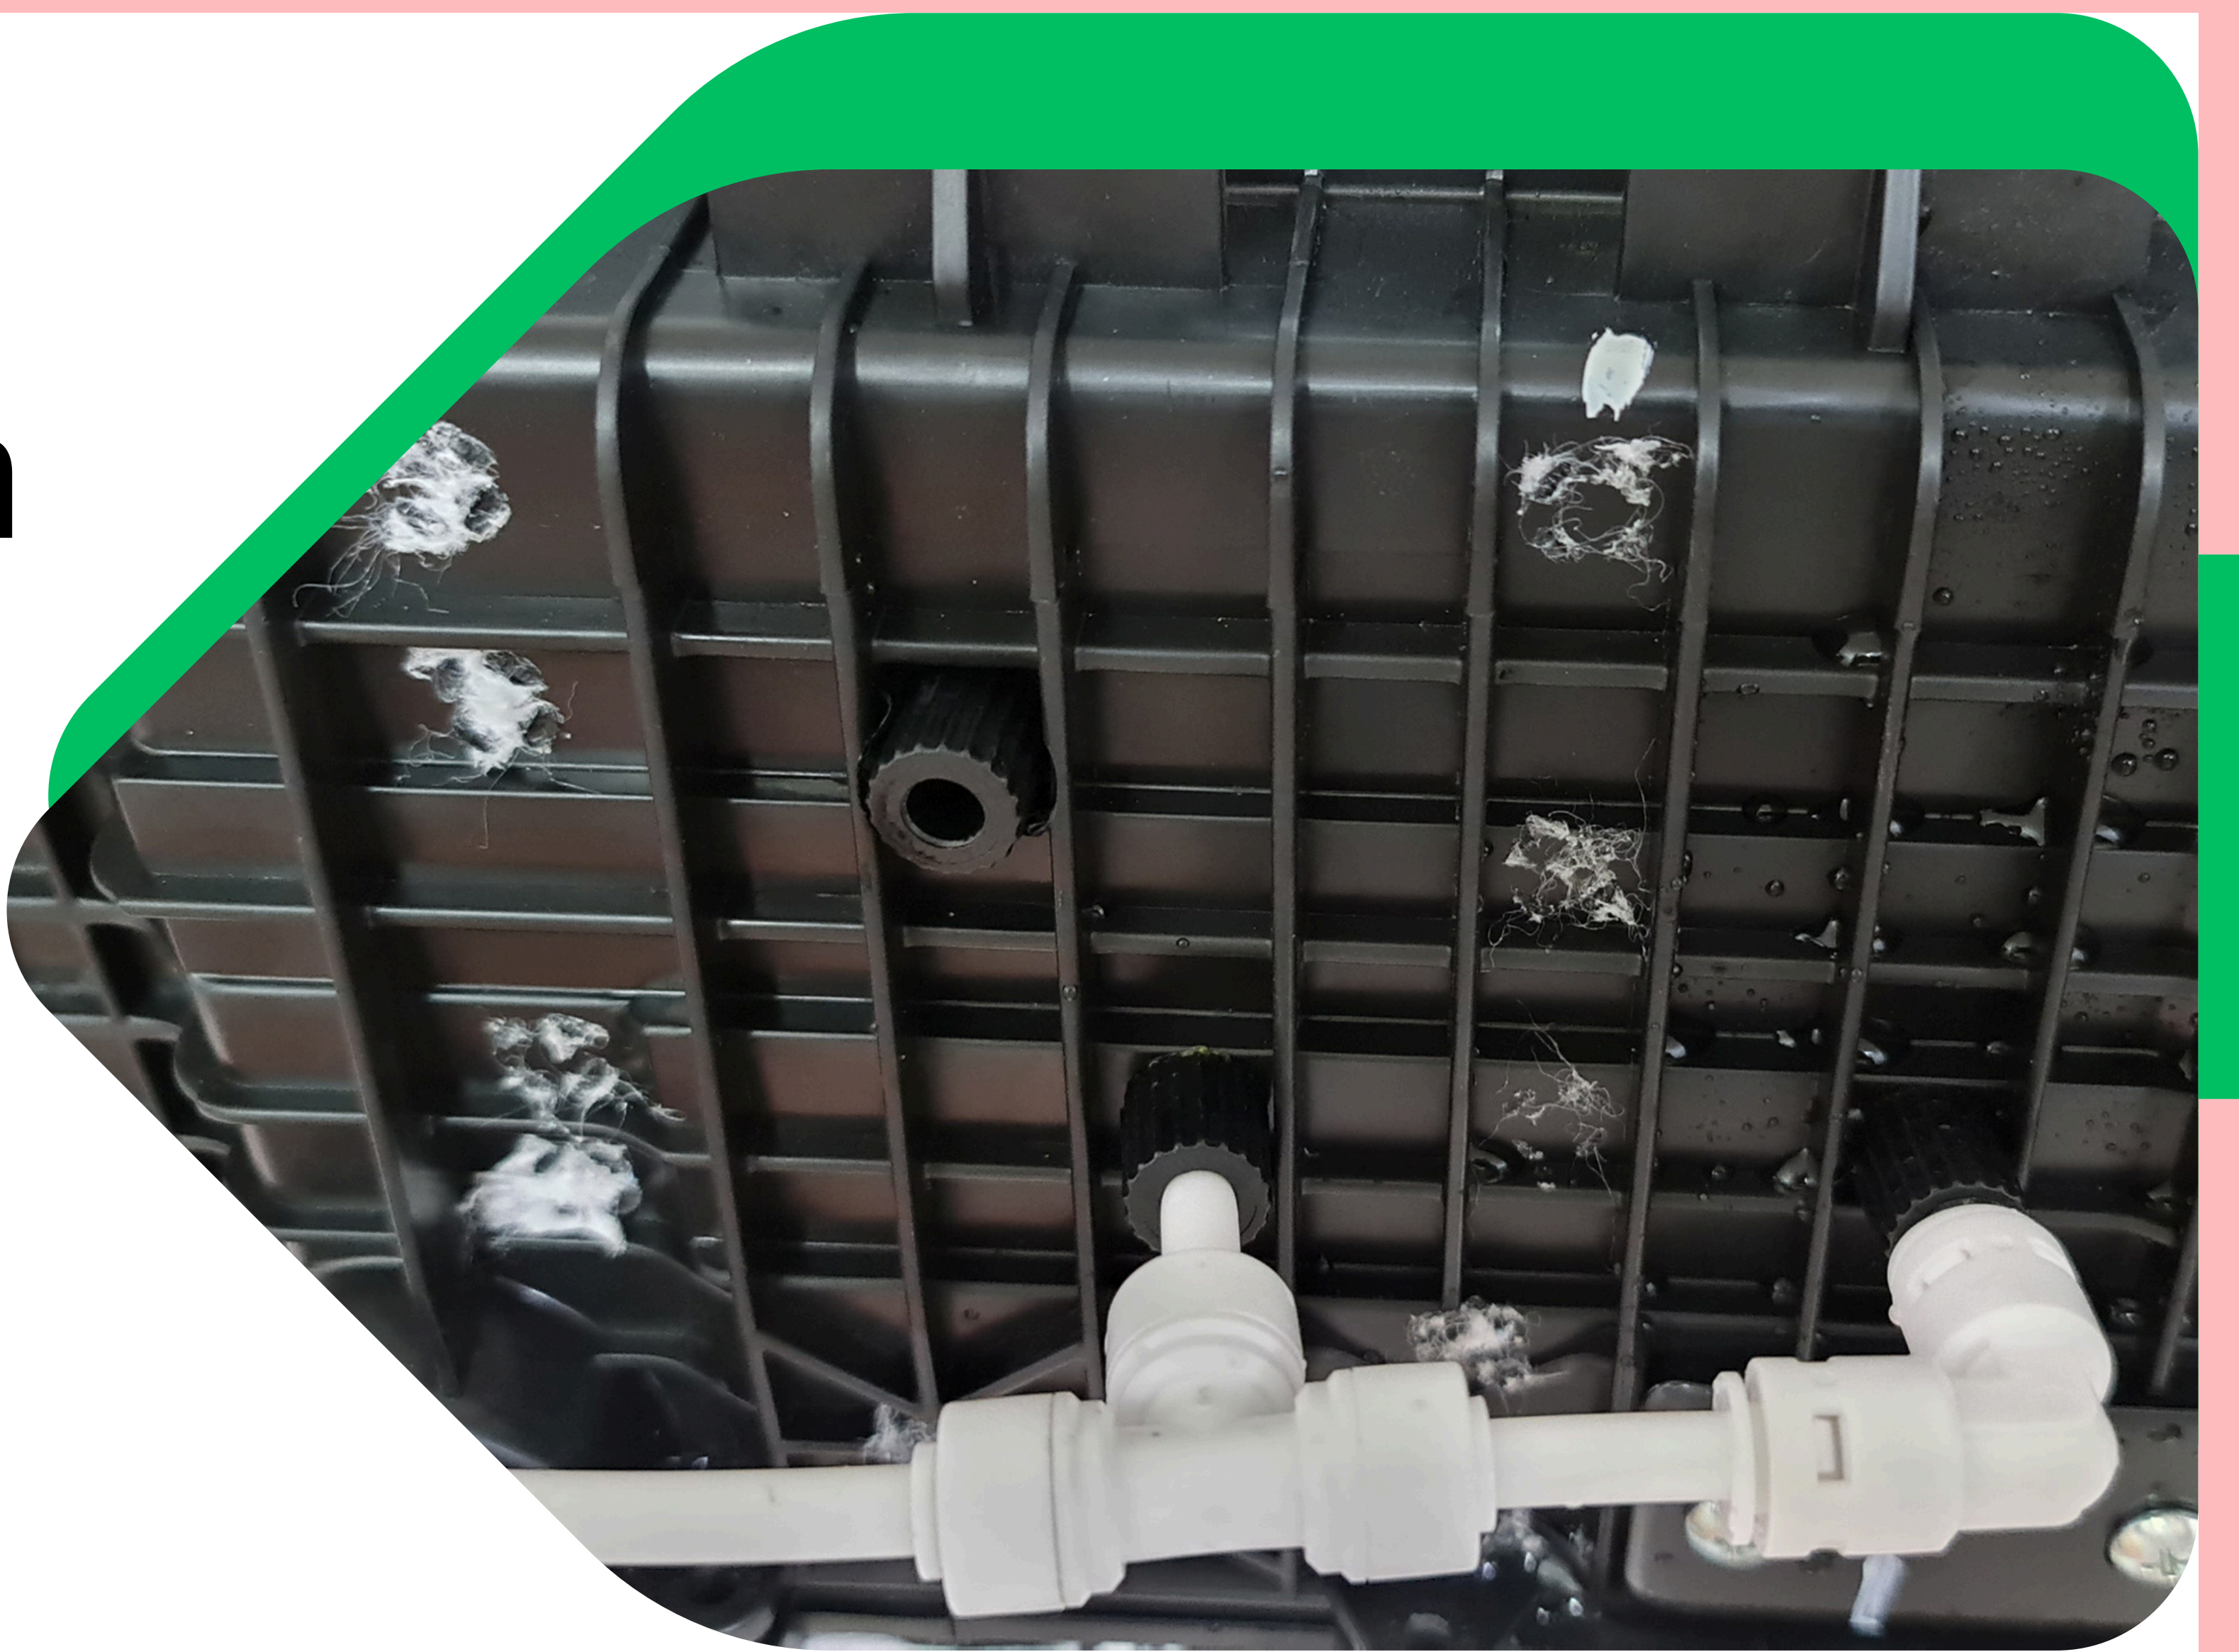

Just like how it is standard in every car to have windshield sprayers

We should standardize evaporator sprayers to clean the evaporator

They can be installed easily in new cars and retrofit any old car with small part change

Environmental and biodegradable solutions can be used and cost effective
