

Revolutionizing Biological Preservation: The Zero-Formalin Solution

A Safer, Sustainable Future for Biological Science

K.Srisuwatanasagul, T.Triangkul, P.Riubon, O.Khampila, S.Srisuwatanasagul

Zero-Formalin Preservative Solution or ZF solution, a groundbreaking innovation designed to revolutionize the preservation of biological cadavers

Aligned with the United Nations Sustainable Development Goals

With Zero-Formalin Solution, we are not just preserving cadavers; we are preserving **health**, **safety**, and **educational integrity**.

ZF solution formulation

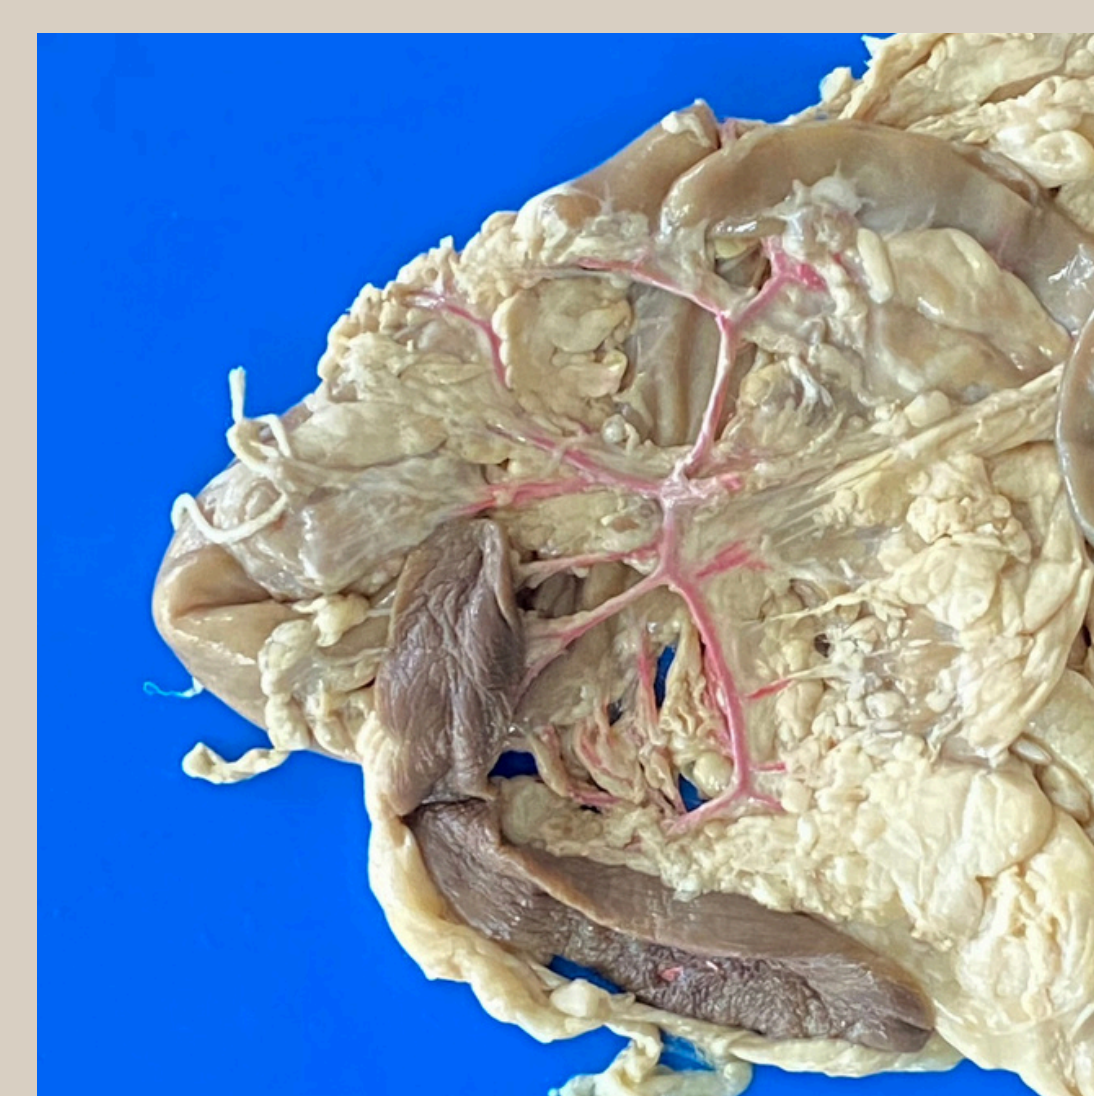

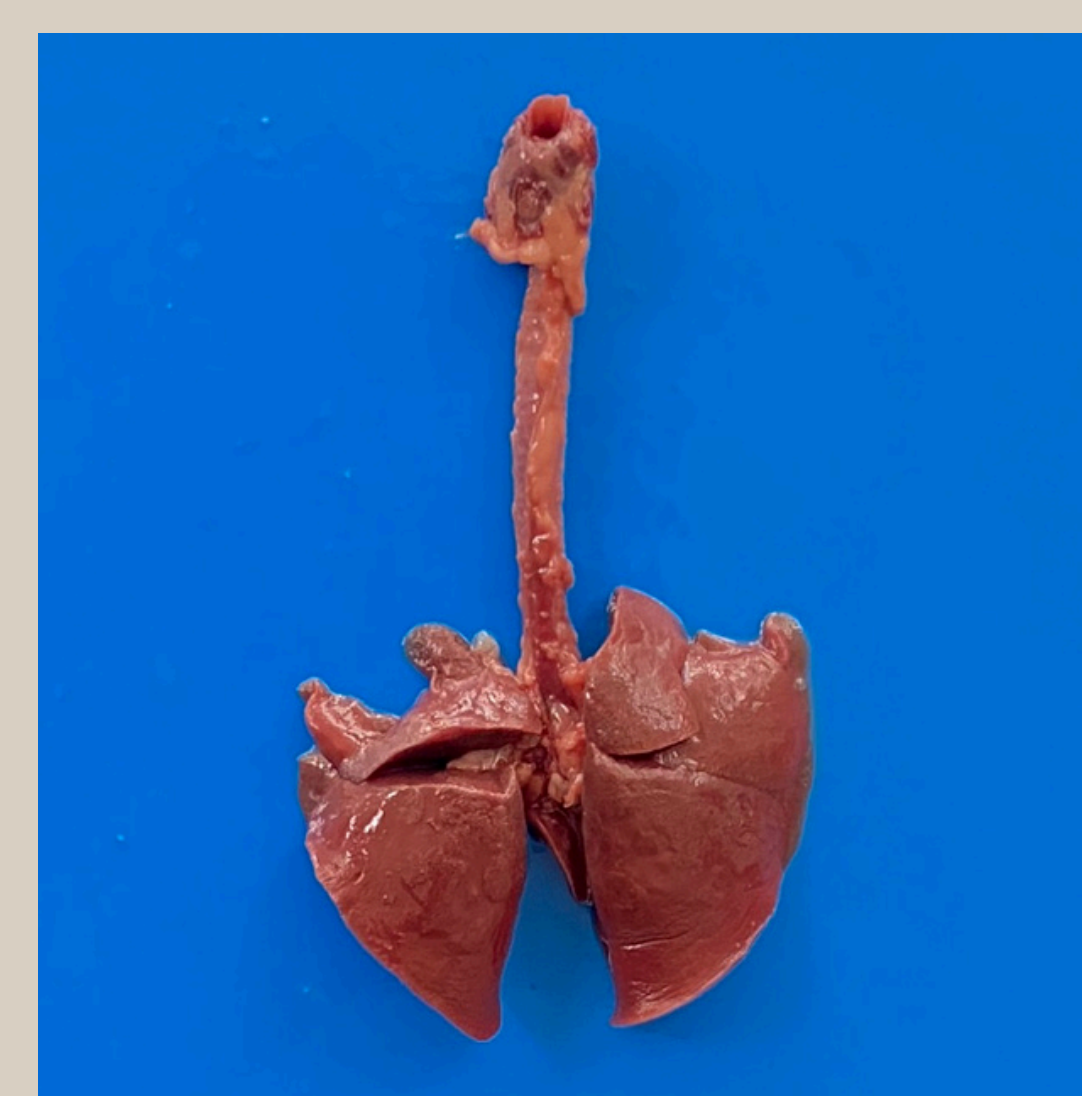

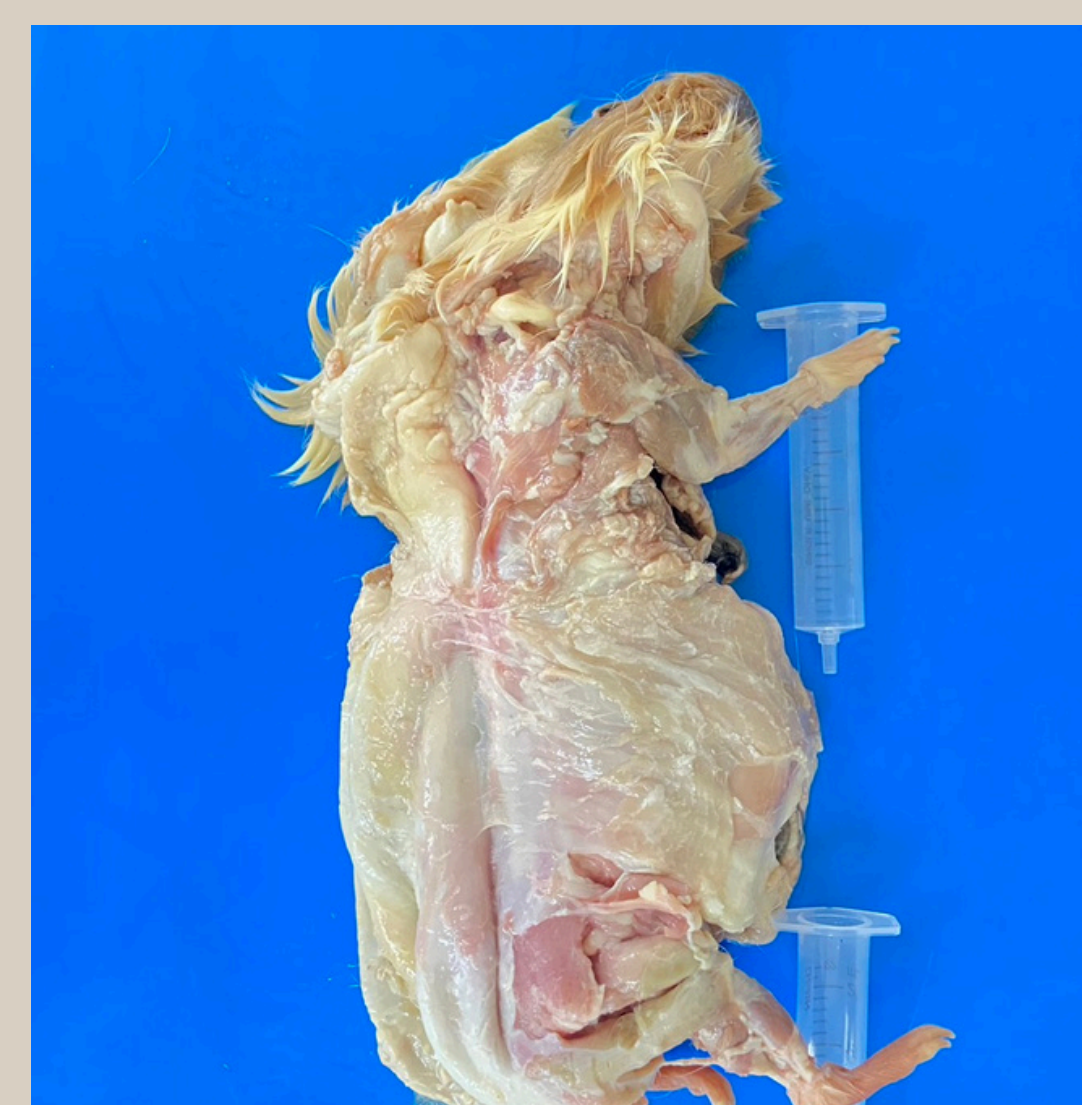

Alcohol

Humectant

Antioxidant

Disinfectant

Specimens preserved with ZF solution

What Makes ZF Solution Unique?"

Non-toxic and carcinogen-free

Long-lasting preservation

Enhances the educational experience

Reduces environmental impact

Join us in embracing this innovation that bridges science with sustainability
