

PREMIUM OAK FURNITURE

# Designer but traditional

FURNATUR is a hand-made, luxurious oak furniture brand of the Croatian company EGORRA Ltd. It represents a perfect combination of tradition, modern design and clean lines. Each product from the FURNATUR series was created by the power of nature, while processing old oak logs, based on experience in woodworking and tradition through four generations of the Hodalj family.

Company EGORRA Ltd. led by inventor Mr. Tomislav Hodalj in collaboration with Faculty of Forestry and Wood Technology in Croatia, has closed the pore sin wood, specialised in Oak and Walnut and on that way made the Oak waterproof. The same is shown in SINK PAVAO, and the same technology is used in SHOWER TUB KATE.

## A 110-YEAR-OLD FAMILY TRADITION

EGORRA

The special feature of FURNATUR products is their waterproofness. To make the wood waterproofness in cooperation with the Faculty of Forestry and Wood Technology in Zagreb we produced special coating. It closes the wood's pores so water cannot pass through. This makes our products unique.

## Sink Pavao

The first product in the series – Pavao. A rustic sink with clean lines and numerous possibilities. Left, right or in the center. You choose where the faucet will be located, and this matte black one comes complete with the Pavao sink.

The whole represented by our furniture is mirrored by the homogeneity we create in moments while processing old oak trunks, based on experience in woodworking and tradition through four generations of the Hodalj family. In addition to being magnificent, at the same time they also tell the story of the roots that they have woven into the traditions of our homeland.

## Shower tub Kate

New product of Furnatur brand – Kate. This shower tub excellent complements sink Pavao by using natural materials and similar design. It comes together with a black matte siphon.
